We're pleased to announce the **THEbenefitsHUBSM** 5.0 system update. This expedited release is a result of the user community feedback from our valued customers and broker partners. This release provides enhancements to the enrollment experience by implementing cosmetic and functionality improvements. The visual change to the employee walkthrough provides a more modern look and brings greater consistency between **THEbenefitsHUBSM** and your benefit website.

Login Screen

Upon accessing your employee enrollment site, you'll notice the complete redesign of the login screen. The benefit site has been specifically branded to represent your organization by implementing the following to your site:

- The placement of the login fields has moved to the right of the screen
- A clear, concise list of supported browsers is located below the login field. The listed browsers provide the most optimal experience with **THEbenefitsHUBSM**
- Your Company primary colors will be placed as accents throughout the page to give a more customized look
- The content of the page is placed in a "floating window," which keeps your eyes focused on the most important parts of the screen and makes navigation through the employee enrollment process simpler

- Videos are written, filmed and produced in MGM Benefits Group's home office studio, and will be a growing part of **THEbenefitsHUBSM** offering.

To request this feature availability, contact the Marketing department with MGM Benefits Group to activate videos.

Improved Contingent Plan Election Process

An added enhancement to the Terminate Plan Election screen allows users to clearly elect and terminate contingent benefit plans. Below is an overview of the implemented changes:

- When a termination date is entered for an election, THEbenefitsHUBSM will terminate the contingent elections using the same date.
- Users will be able to view the history of this change in the History File under the Personal Information icon

Example of History Entry Note:
