# Release Notes

Version 5.5.1

02/10/2017

We are pleased to announce **THE**_benefits_**HUB** 5.5.1 system update. With this update, you'll find improvements to several key functions of the system. We encourage you to continue providing us with your experiences as we improve our services.

Add Journal Entry Link

It's always good to add a journal entry after making a change to an employee's record. Now it's even easier to do this with the new "Add Journal Entry" link at the top of the Employee Administration screen, next to the "Select Employee" link.

Administration Dashboard

The menus under the administration dashboard are now expandable/collapsible! The tools are also listed in alphabetical order, which helps you find what you need when you need it.

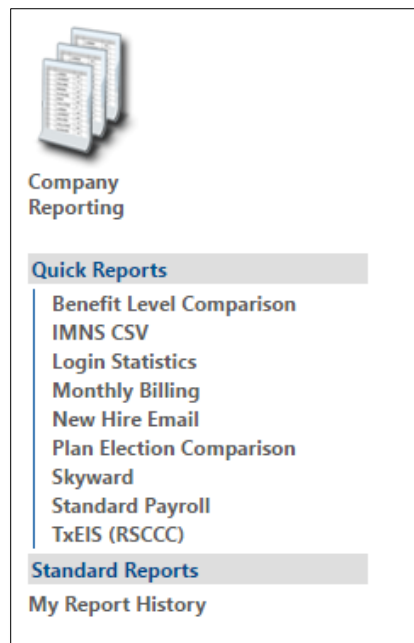

More Reporting Options (Coming Soon!)

While they're not quite ready for use with this system update, the ground work is in place for this exciting feature. We can't say more at the moment, but once all the pieces are in place, this is going to be a game changer!
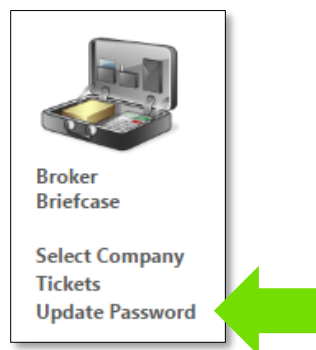

Company Reporting – Updated Menus

We've also given the company reporting menu a facelift. The reports are still separated as they were, but instead of seeing them all at once, you can now expand/collapse each section as needed. Your report history can be found under the Standard Reports.

Update Password – Broker Briefcase

For our brokers, we've made a slight modification to your briefcase. "Change Password" has been renamed to "Update Password". The functionality is still the same.

For any questions regarding these changes, please contact your Account Representative with **THE**benefits**HUB**.

Our team at MGM Benefits Group will continue to work to improve your experience within **THE**benefits**HUB**, utilizing your responses for possible improvements in the future. We strive to support you in handling the benefits of your employees with the easiest and most efficient experience possible. Your feedback is always greatly appreciated and extremely critical in our improvements to **THE**benefits**HUB**.
