## **2018 IRC 6055 Coverage Summary Report for ALEs**

### **IRS 1095 Extension**

The IRS recently published [Notice 2018-94](#) which indicates an extension will occur regarding the due

dates for certain 2018 information reporting requirements for insurers, self-insuring employers, and certain other providers of minimum essential coverage under section 6055. Specifically, this notice will extend the due date for furnishing to individuals the 2018 Form 1095-B from Jan. 31, 2019, to Mar. 4, 2019.

## **Timing**

bswift will post a Coverage Summary report to each district site by end of day on **Friday, Jan. 18**. We'll send you instructions of how to access the report on your secure bswift site.

The report represents coverage established in the bswift system for the 2018 calendar year which includes January – May of 2018 data. If a member is/was on COBRA at any point in the year, an indicator will reflect this. If you find individuals where data needs to be altered, make those changes directly on the report and use the updated version as the source for your filing.
