THE*benefits*HUB
Release 5.6.3

Version 1

New Features

THE*xpress*HUB Export Setup Automation

- **THE*xpress*HUB** now has the ability to automatically configure exports, making export creation more expedient and consistent. Not only will the export be created, but it will also start the process of cloning over specific export settings as well, such as the Export Manual Field, Export Special Value and File Transfer Protocol fields.

Updated Features

Google Analytics

- Additional work is being done to aid in gathering more exact information about the client experience in **THE*benefits*HUB**.

EDI Test Environments

- We have enhanced our EDI testing abilities for test environments within **THE*benefits*HUB**. Having this ability provides the opportunity to more easily test exports and export configurations.

OneAmerica ESOI Questions Processing

- A few of the questions within the OneAmerica ESOI have been updated to meet new underwriting standards.

THE*xpress*HUB Beneficiary Settings

- **THE*xpress*HUB** has been enhanced to clone over company beneficiary settings from the exchange companies created through the system.

LEARNsynx Icon

- Our Learning & Performance team with **THE*benefits*HUB** has changed its name! Check out the new icon in **THE*benefits*HUB** and all of our new rebranded content.
